Field Collection empowered with MYCMobile™

- Smarter Negotiations
- Faster collection
- Improved Liquidity

Collections to Bank is often not a smooth ride. Lack of adequate real-time information to your field collection agents results in an unpredictable and delayed cash flow from your last mile customers. Some practical challenges in the field collection process are getting the following information at the right time and place .

- Customers outstanding balance
- Pending shipments block due to credit exposure
- Cheques collected from customers
- Cheques pending for banking

The cumulative effect of these missing information is manifold. On one hand , your collection agents cannot negotiate effectively for better cash flow and on the other your accounting department does not have real-time information on collections and banking by them.

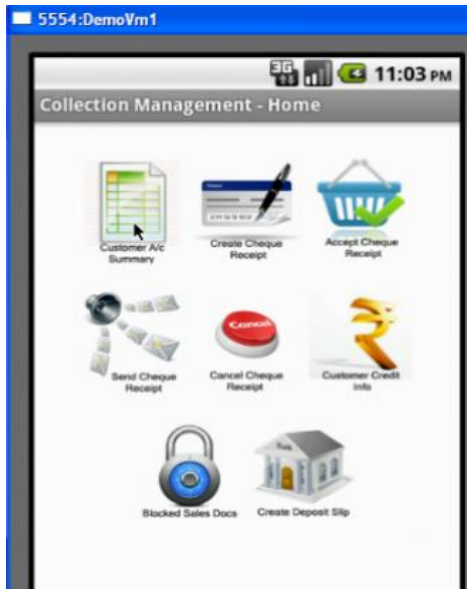

MYCMobile™ solution empowers your field collection agents by providing information on the fly with just a mobile phone...!

Some of the features include:

- Access to account statement
- Cheque receipts
- Online update of your customer's account enhancing their credit limit

Bank your collection with few taps on your mobile. MYCMobile™ ensures

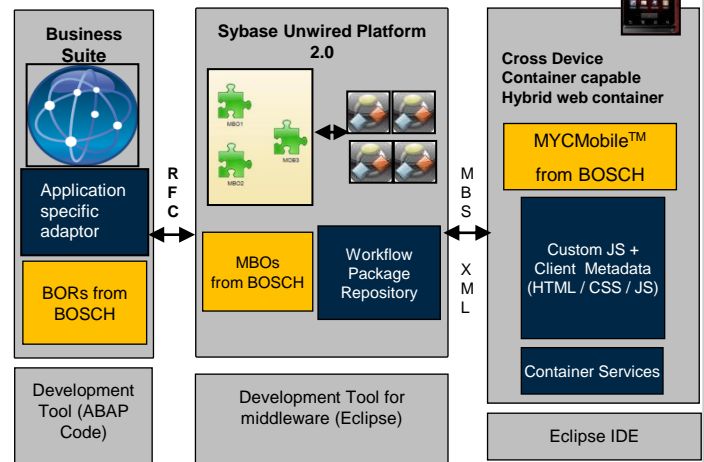

- Real time accounting
- Faster money flow to the organization
- Compliance in accounting

Application – Online application

Paradigm – Web container through middleware data modeling (MBO)

Target Platform and Devices: Cross Device Online Application

Collection and Banking process is now faster, better and smoother with MYCMobile™
