Introduction

Steps for generating MDM Hardware Key required for registering MDM Server on Service Marketplace

Prerequisite

MDM server 5.5 SP06

Standard document to refer - Note 860063 - Creating customer messages using MDM 5.5 Standalone

Methodology

Step 1 – Obtaining Required Files from SMP

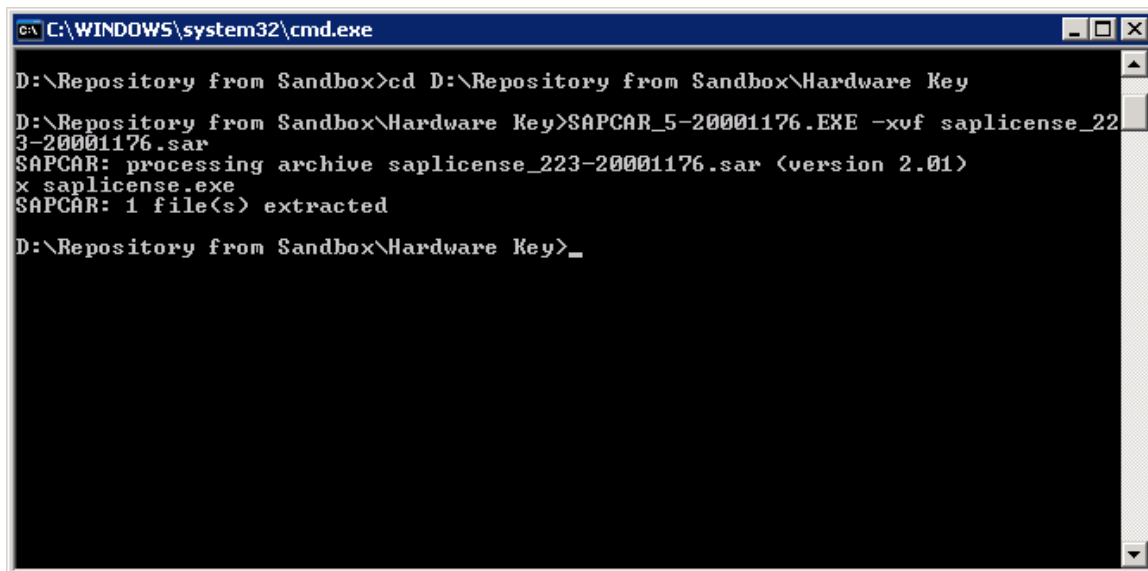

Copy the following files from SAP Service Marketplace

- saplicense_223-20001176.sar
- SAPCAR_5-20001176.EXE

Step 2 – Uncar the downloaded files

Open a DOS Command prompt and give the commands respective to the files location

Dos prompt> SAPCAR_5-20001176.EXE -xvf saplicense_223-20001176.sar

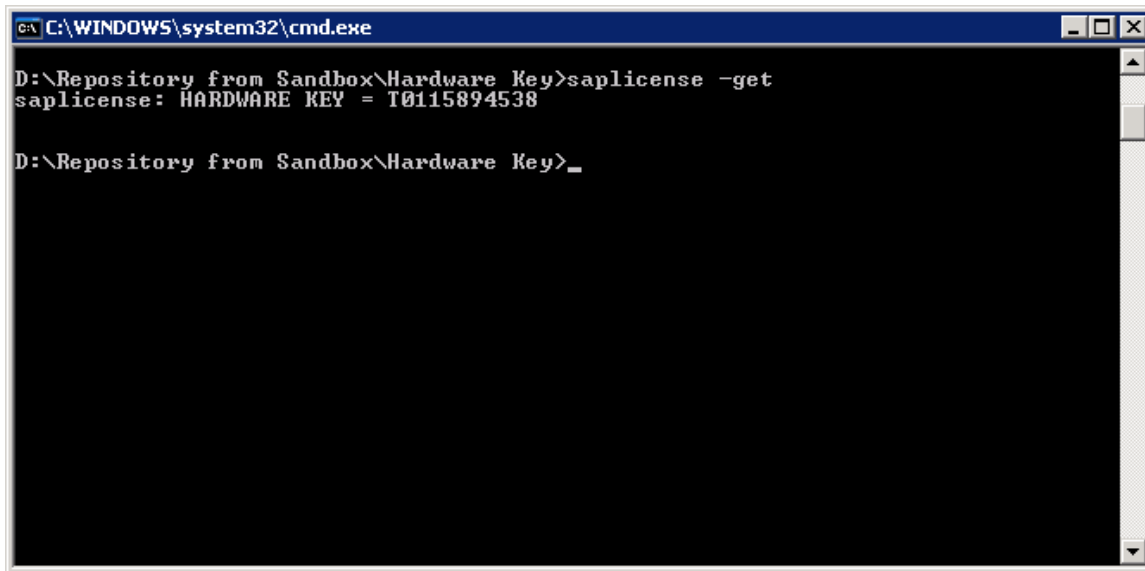

```
C:\WINDOWS\system32\cmd.exe
D:\Repository from Sandbox>cd D:\Repository from Sandbox\Hardware Key
D:\Repository from Sandbox\Hardware Key>SAPCAR_5-20001176.EXE -xvf saplicense_223-20001176.sar
SAPCAR: processing archive saplicense_223-20001176.sar (version 2.01)
x saplicense.exe
SAPCAR: 1 file(s) extracted
D:\Repository from Sandbox\Hardware Key>_
```

Step 3 – Execute SAP License

After extracting as above, give the following command:

Dos Prompt> Saplicense -get

```
C:\WINDOWS\system32\cmd.exe
D:\Repository from Sandbox\Hardware Key>saplicense -get
saplicense: HARDWARE KEY = T0115894538
D:\Repository from Sandbox\Hardware Key>_
```

After this Hardware Key is generated then you have to login to Service marketplace and register the MDM Server in landscape as per the SAP note referred in the start of this document.
