smartShift Releases New Optimization Solution for Code Development

smartShift

www.smartshiftgroup.com

smartShift by Cambridge Technology Enterprises has released smartDevelop, a software-as-a-service (SaaS) model for code development and quality assurance solutions. smartDevelop is designed to assist developers and quality assurance managers by automatically capturing, reviewing, and correcting code issues and errors. This functionality can help developers ensure that their applications are compliant with the newest SAP technology standards and save time during developments.

Dell Launches Offerings for Dell Cloud Suite for SAP Solutions

Dell

www.dell.com

Dell Services has announced its first offerings for the new Dell Cloud suite for SAP solutions. Customers who want to move their SAP solutions to a secure public, private, or hybrid cloud environment can choose from two options: the Dell Cloud Starter Kit for SAP solutions, which is designed to provide access to Dell's cloud environment, or the Dell Cloud Development Kit for SAP solutions, designed for customers who need a comprehensive development landscape for running SAP solutions.

SEEBURGER Announces File Sharing on the Amazon Web Services Cloud

SEEBURGER

www.SEEBURGER.com

SEEBURGER has announced the availability of SEEBURGER File Exchange (SEE FX) for user-to-user file sharing on the Amazon Web Services (AWS) cloud. SEE FX is designed to enable small and midsize organizations to securely transfer ad hoc files of any size from any source, including SAP applications running on AWS that are integrated with SEEBURGER solutions. Deployment on the AWS cloud also allows customers to choose which AWS region to use for nearby hosting and to scale up or down on demand.

Excel4apps Unveils New Release of GL Wand

Excel4apps

www.excel4apps.com

Excel4apps has unveiled the newest release of its SAP-certified inquiry and reporting software, GL Wand, version 3.45. This release features the Reports Distribution Manager add-on, designed to help users define reports and parameters for execution, and then automatically email this information to specified end users. Additional enhancements in the new release also include easier access to statistical values, improved hierarchy reporting, and the option to display cleared line items in general ledger drill downs.

Optimal Solutions Offers Consulting Services for SAP HANA

Optimal Solutions

www.optimalsol.com

Optimal Solutions Integration, Inc., an SAP services partner, has announced that it now offers a portfolio of consulting services to help organizations cost-effectively and quickly deploy the SAP HANA database. Optimal's OPTIMIZE service offerings for SAP HANA leverage the company's knowledge about SAP Business Suite software and SAP analytic applications. Specific service offerings include roadmap workshops, migration services, services for rapid deployment of SAP HANA, and implementation services.

Exaserv Reveals HCM Mobile App for SAP Customers

Exaserv

www.exaserv.com

Talent management solution provider Exaserv has released Exalerate Onboarding, a mobile app compatible with SAP E-Recruiting and tailored for SAP ERP Human Capital Management (SAP ERP HCM) customers. The app is designed to simplify company-mandated new hire processes, like payroll and benefits setup. Custom built for the iPad, this app allows the onboarding process to be set up on the go, reducing time and effort for both managers and newly hired employees.
