When you're ready to improve the efficiency of your accounts payable processes, consider invoice management solutions from SAP.

With these solutions, you can automate the full paper-to-post invoice management process. Streamline and simplify the way you create, manage, monitor, and route purchase orders and invoices. Better control of your working capital helps you increase cash flow, enhance visibility into cash requirements and payments, and improve vendor relations.

THE CHOICE IS YOURS

We offer two flexible deployment options for invoice management.

If your organization prefers on-premise software, use the SAP® Invoice Management application by OpenText. Fully integrated with the

SAP ERP application, SAP Invoice Management helps you better manage invoice processing, eliminate manual data entry errors, and meet critical payment and compliance deadlines.

When you need a cloud-based solution, choose the Ariba Invoice Professional solution from Ariba, an SAP company. This on-demand offering provides suppliers with full visibility into invoice status and helps your invoice processing team streamline workflows and exception management. You can collaborate with suppliers, speed up approval cycles, take advantage of dynamic discounting, and reduce processing costs.

Whichever solution you choose, our integrated networked approach allows you to connect with nearly 1 million trading partners across 142 countries via the Ariba Network.
