

# SAP NetWeaver Visual Composer

## Export (copy) and Print

### **Description:**

This feature enables you to copy or print a screen, table or a specific row.

### **How To Do:**

- Right click the Table view or the Form view and choose “Create Toolbar” option.
- Click “+” symbol to add buttons.
- Give an appropriate name to the buttons (Copy or Print).
- Choose an appropriate action in the “system action” field (Export data or Print data). You can also use the Parameters option.
- Continue to create other buttons in the same manner.

## Design time

The screenshot displays the SAP Business Objects Designer interface during design time. The main workspace shows a workflow diagram with the following components and connections:

- Input Form:** A green rounded rectangle with an 'in' port on the left and an 'out' port on the right.
- Bank Getlist:** A blue rounded rectangle with an 'Input' port on the left and 'Bank List' and 'Return' ports on the right.
- Bank List Grid:** A green rounded rectangle with an 'in' port on the left and an 'out' port on the right.

Connections include a 'start' node pointing to the 'Input Form', a 'submit' connection from 'Input Form' to 'Bank Getlist', and a connection from 'Bank Getlist' to 'Bank List Grid'. A toolbar at the bottom of the workspace contains various icons for navigation and editing.

In the foreground, the 'Create Toolbar Buttons' dialog box is open. It features a list of buttons on the left and configuration options on the right:

- Toolbar Buttons:** A list containing 'Copy Row', 'Copy Table', 'Copy Screen', 'Print Page', and 'Print Table'. 'Copy Row' is currently selected.
- Define Button:** A section with a 'Button text' field containing 'Copy Row'.
- Define Action:** A section with the following settings:
  - Action type:** Radio buttons for 'System action' (selected), 'Custom action', and 'No action'.
  - System action:** A dropdown menu set to 'Export data'.
  - Apply to:** A dropdown menu set to '[self]'.
  - Parameters:** Radio buttons for 'Export row' (selected), 'Export table', and 'Export screen'.
  - Action code:** A text field containing 'EXPORT(ROW)'.

Buttons for 'OK' and 'Cancel' are located at the bottom right of the dialog. In the top right corner of the main window, a 'Deployed successfully!' notification is visible, with links for 'View source code' and 'Run "Export\_\_print"'. The status bar at the bottom left shows 'Done' and the bottom right shows 'Local i'.
