Additional icons are used in SAP Library documentation to help you identify different types of information at a glance. For more information, see *Help on Help → General Information Classes and Information Classes for Business Information Warehouse* on the first page of any version of *SAP Library*.

Typographic Conventions

Type Style	Description
Example text	Words or characters quoted from the screen. These include field names, screen titles, pushbuttons labels, menu names, menu paths, and menu options.
	Cross-references to other documentation.
Example text	Emphasized words or phrases in body text, graphic titles, and table titles.
EXAMPLE TEXT	Technical names of system objects. These include report names, program names, transaction codes, table names, and key concepts of a programming language when they are surrounded by body text, for example, SELECT and INCLUDE.
`Example text`	Output on the screen. This includes file and directory names and their paths, messages, names of variables and parameters, source text, and names of installation, upgrade and database tools.
Example text	Exact user entry. These are words or characters that you enter in the system exactly as they appear in the documentation.
<Example text>	Variable user entry. Angle brackets indicate that you replace these words and characters with appropriate entries to make entries in the system.
EXAMPLE TEXT	Keys on the keyboard, for example, F2 or ENTER.

Introduction 5
Before You Start 5
Technical System Landscape 6

Introduction

This guide does not replace the daily operations handbook that we recommend customers to create for their specific productive operations.

Target Audience

- Technology consultants
- System administrators

This document is not included as part of the Installation Guides, Configuration Guides, Technical Operation Manuals, or Upgrade Guides. Such guides are only relevant for a certain phase of the software life cycle, whereby the Security Guides provide information that is relevant for all life cycle phases.

Why Is Security Necessary?

With the increasing use of distributed systems and the Internet for managing business data, the demands on security are also on the rise. When using a distributed system, you need to be sure that your data and processes support your business needs without allowing unauthorized access to critical information. User errors, negligence, or attempted manipulation on your system should not result in loss of information or processing time. These demands on security apply likewise to the *Dealer Sales & Service* scenario. To assist you in securing the *Dealer Sales & Service* scenario, we provide this Security Guide.

About this Document

The Security Guide provides an overview of the security-relevant information that applies to *Dealer Sales & Service*. This business scenario is based on a relatively simple system landscape. Most security-relevant information is already covered by different component security guides mentioned in this document. Therefore, this Scenario Security Guide only gives an overview of the relevant Component Security Guides you ought to consult for this scenario.

Before You Start

Fundamental Security Guides

The *Dealer Sales & Service* scenario is based on the components SAP Enterprise Core Component 5.0 (SAP ECC 5.0), SAP ECC-DIMP 5.0 and SAP Dealer Business Management 5.0 (SAP DBM 5.0). Therefore, the corresponding Security Guides also apply to the scenario. Pay particular attention to the most relevant sections or specific restrictions as indicated in the table below.

Fundamental Security Guides

Scenario, Application or Component Security Guide	Most-Relevant Sections or Specific Restrictions
SAP ERP Central Component Security Guide	Most relevant sections: General sections about technical system landscape, user administration and authentication, authorizations, network and communication security

SAP ECC-DIMP Security Guide	Most relevant sections: All information about ECC-DIMP in general and all information about Automotive and SAP DBM

For a complete list of the available SAP Security Guides, see the Quick Link securityguide on the SAP Service Marketplace.

Additional Information

You can find more information about the *Dealer Sales & Service* scenario in SAP Solution Manager, Implementation Content release ST-ICO 150. For more information about the component SAP Dealer Business Management (SAP DBM), see the documentation for SAP DBM on the SAP Help Portal.

For more information about specific topics, see the Quick Links as shown in the table below.
