NEWSLETTER

— THE BEST-RUN BUSINESSES RUN SAP

From SAP Security Product Management

Issue 5, June 2005

This is the June issue of the internal SAP Security Newsletter. Please feel free to forward it to interested colleagues, or use the subscribe function below to register. However, the content provided in this newsletter may include information that is not for public distribution, so please do not forward it externally.

Content Summary

- SAP Security Optimization Service available as a Self Service in the SAP Solution Manager
- New Webcast on NetWeaver Security
- e-Learning: Tour the Five Building Blocks of SAP NetWeaver Security
- SAP NetWeaver Developers' Guide for NW2004
- Events

SAP Security Optimization Service Now Available as a Self Service in the SAP Solution Manager

With the latest Solution Manager Content Plug in ST-SER 2005_1 a free version of the SAP Security Optimization Service is now available in the SAP Solution Manager. It contains fully automated checks in the SAP R/3 and SAP WebAS ABAP-Stack area. Also self defined authorization checks are now available. More information can be found in the service marketplace under www.service.sap.com/sos and in SAP Note 837490.

New Webcast on NetWeaver Security

SAPPHIRE '05 Boston is over, but the learning opportunities haven't ended. This international SAP customer conference generated a wealth of information about strengthening your business with innovative SAP solutions. Check out security expert Sarah Maidstone's [Webcast on NetWeaver Security](#). To access the Webcast insert search string "security" and select "A Secure Future Today with SAP NetWeaver".

Tour the Five Building Blocks of SAP NetWeaver Security: User Management, Trust Management, Secure System Management, Application Security, and Auditing

Check out the latest [e-learning session on SAP NetWeaver Security](#) presented by Security Product Manager Gerlinde Zibulski.

SAP NetWeaver Developers' Guide for NW2004

A new shortcut for the NetWeaver Developers' Guide on SDN is available:

Events

July 20 - 22, Wellesley Information Services (WIS), publisher of SAP Insider magazine is hosting the Admin2005 conference in **Orlando**, which is to include a dedicated security track. Within this track SAP security specialist Gerlinde Zibulski will hold lectures on Centralized User Management and Portal Roles versus Backend Authorizations. For details of the event, see <http://www.sapadmin2005.com/>.
