Author Bio

I have been part of the SNC development team in Palo Alto since 2004. Overall I have been a developer at SAP in Germany, Japan, and California since 1997 and at Software AG in Germany since 1989. I hold a masters degree in industrial engineering and computer science.

Building blocks are the individual boxes shown in quick view and key figures are represented by the bars in the charts of the rows in the tables:

In the quick view configuration (transaction /n/SCF/MYSCFG) there are three folders that deal with building blocks and key figures:

The building block shows the key figures that are assigned to it in *Assign Key Figures to Blocks and Define Navigation*.

If you are willing to risk a modification, you can simply delete the assignments of those key figures you don't want to see.

For a modification-free solution:

- Go to *Define Building Blocks for Quick View* and copy the building block in question into the customer name space (X*, Y*, Z*):

In each copied assignment, replace the name of the building block with the one created above.

- Now replace the record containing the SAP-building block with an identical one containing your new building block in *Assign Building Block to Quick View* for all records that contain the building block:

The screenshot shows the SAP configuration tool interface for 'Assign Building Blocks to Quick View'. The 'Dialog Structure' tree on the left shows the configuration path. The main table lists the following assignments:

A.	Screen ID	Partner	User Name	Block ID	Tab	Seq.	Display Chart
ICH	SC0UI0KVIEW5			MICROBLOGS	1	1	<input type="checkbox"/>
ICH	SC0UI0KVIEW5			P02BCONFS	2	2	<input type="checkbox"/>
ICH	SC0UI0KVIEW5			DUEPDS	2	3	<input type="checkbox"/>
				ASNS	2	4	<input type="checkbox"/>
				A_INV5	3	5	<input type="checkbox"/>
				NOTEALERTS	3	5	<input type="checkbox"/>

- Copy the assignment record and replace the name of the building block
- Delete the original record
