# SAP for Healthcare

## Integrating the Healthcare Enterprise (IHE)

### Integration Statement

#### IHE Integration Statements

According to the IHE initiative IHE Integration Statements are documents prepared and published by vendors to describe the intended conformance of their products with the IHE Technical Framework (see [here](#) for details). They identify the specific IHE capabilities a given product is designed to support in terms of the key concepts of IHE: Actors and Integration Profiles (described in Volume I, section of the IHE Technical Framework).

Users familiar with these concepts can use Integration Statements as an aid to determine what level of integration a vendor asserts a product supports with complementary systems and what clinical and operational benefits such integration might provide. Integration Statements are intended to be used in conjunction with statements of conformance to specific standards (e.g. HL7, DICOM, W3C, etc.).

IHE provides a process for vendors to test their implementation of IHE Actors and Integration Profiles. The IHE testing process, culminating in a multi-party interactive testing event called the Connect-a-thon, provides vendors with valuable feedback and provides a baseline indication of the conformance of their implementations. The process is not, however, intended to independently evaluate, or ensure, product compliance. In publishing the results of the Connect-a-thon, and facilitating access to vendors' IHE Integration Statements, IHE and its sponsoring organizations are in no way attesting to the accuracy or validity of any vendor's IHE Integration Statements or any other claims by vendors regarding their products.

#### Disclaimer

The use of these IHE Integration Statements, by itself, it is not sufficient to ensure that inter-operation will be successful. The user needs to proceed with caution and ensure that a qualified systems' integration addresses at a minimum, requirements analysis (i.e. defining the expected workflow, the special conditions, etc.); and validation testing and acceptance. In addition, SAP reserves the right to discontinue or make changes to product features including those reflected by this IHE Integration Statement, as part of the normal evolution of the IHE Technical Framework and the underlying communication standards to meet users' growing requirements, in order for SAP to enhance products and support these changes.

#### SAP AG

Represented by the Executive Board: Bill McDermott (Co-CEO), Jim Hagemann Snabe (Co-CEO), Werner Brandt, Angelika Dammann, Gerhard Oswald, Vishal Sikka and Chairperson of the SAP Supervisory Board: Hasso Plattner

## IHE Integration Statement

Vendor	Product Name	Version	Date
SAP	SAP for Healthcare	ECC 6.0 EhP5	May 20, 2011

This product implements all transactions required in the IHE Technical Framework to support the IHE Integration Profiles, Actors and Options listed below:

Profiles Implemented	Actors implemented	Options implemented
Consistent Time (CT)	Time Client	None
Patient Demographics Query (PDQ)	Patient Demographics Supplier	None
Patient Administration Management (PAM)	Patient Demographics Supplier	Merge
Patient Administration Management (PAM)	Patient Demographics Consumer	Merge
