

# SAP NetWeaver Visual Composer

## Using Hyperlink for Emails and Websites

## Hyperlink (Email and Websites)

### **Description:**

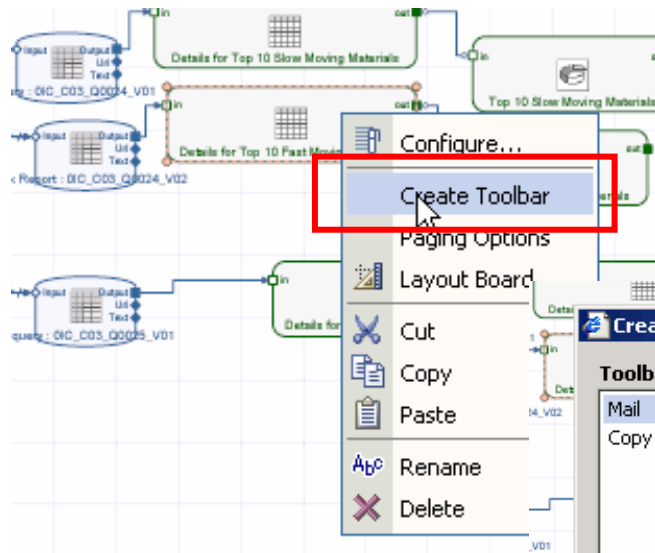

You can create a button that links to a URL (html page or Email option) by creating a hyperlink and embedding the URL in a formula.

### **How To Do:**

- Right click the Table view and choose “Create Toolbar” option.
- Click “+” symbol to add a button.
- Give the button an appropriate name.
- Choose appropriate action in the “system action” field.
- Give respective formulas as you can see in the screenshots below.
- Continue to create other buttons in the same manner.

Open Create Toolbar option

Settings to generate Email option

The 'Create Toolbar Buttons' dialog box is shown, with the 'Mail' button selected in the 'Toolbar Buttons' list. The 'Define Action' section is highlighted with a red box, showing the following settings:

- Action type:  System action  Custom action  No action
- System action:
- Apply to:
- Hyperlink address:
- Action code:

Buttons for 'OK' and 'Cancel' are visible at the bottom right of the dialog.

# Hyperlink (Email)

## Run time

The screenshot displays the SAP Analytics Cloud interface during runtime. A dashboard is visible with several components:

- Inventory Turnover Chart:** A bar chart showing negative values for various materials, with a scale from -2.77 to -2.4.
- Average Stock Value [Dollar]:** A table with a highlighted row.
- Details for Top 10 Materials:** A table listing material numbers and their categories.

An email editor window is overlaid on the dashboard, titled "Untitled - Message (Rich Text)". The editor includes a menu bar (File, Edit, View, Insert, Format, Tools, Actions, Help) and a toolbar with icons for Send, Save, Undo, Cut, Paste, Attach, Bold, Italic, Underline, and Link. The "To..." field is populated with "Julie.jones@work.com". The "Cc..." and "Subject:" fields are empty.

## Design time

The screenshot displays a workflow diagram titled "Hyperlink / Dynamic" on a grid background. The workflow consists of three main components: an "Input Form" (green box) with an "in" port and an "out" port; a "Bank Getlist" (blue box) with an "Input" port and a "Return" port; and a "Bank List Grid" (green box) with an "in" port and an "out" port. A "submit" arrow connects the "out" port of the Input Form to the "Input" port of the Bank Getlist. Another arrow connects the "Return" port of the Bank Getlist to the "in" port of the Bank List Grid.

Overlaid on the diagram is a "Create Toolbar Buttons" dialog box. The "Toolbar Buttons" list on the left includes "Prompt", "Hyperlink" (selected), and "Dynamic". The "Define Button" section shows "Button text" as "Hyperlink". The "Define Action" section is highlighted with a red box and contains the following settings:

- Action type:  System action  Custom action  No action
- System action: Hyperlink (dropdown)
- Apply to: [self] (dropdown)
- Hyperlink address: "http://www.google.com/search?hl=en&ie=UTF-8" (text field) with a "Formula" button to its right.
- Action code: URL("http://www.google.com/search?hl=en&ie=UTF-8&q") (text field)

The dialog box also features "OK" and "Cancel" buttons at the bottom right.
