

# SAP NetWeaver `04 SR1 Product Availability Matrix (PAM)

This PAM represents current planning for NW only and not for the SAP products using NW and can be subject to further changes without further notice

## SAP AG

Please note:

This presentation refers to SAP NetWeaver `04 Support Package Stacks. Their planned release schedule is stored in SAP Service Market Place at <http://service.sap.com/~sapidb/011000358700001504032004E>

In addition, see [SAP Note 707730](#) for limitations.

PAM does not contain any statement about the use of heterogeneous platform combinations in one system. There might be restrictions like described in [SAP Note 711093](#)

For the automatically generated PAM which shows more details of already released items please refer to <http://service.sap.com/pam>

# SAP NetWeaver 2004 SR1 PAM

# Legend and Comments related to previous slide

## Legend:

X	<u>Released To Customer</u>
U	<u>Unrestricted Shipment</u>
1-12, Qx	Planned Month or quarter in 2007
D	Deprecated - For customers already using this DB/OS combination in previous releases only. Not supported with next SAP release.
(**)	For upgrade start system on ASCII or Unicode required
(***)	SAP Web AS & SAP BW only, no Unicode and no support for Java components
(v)	x86_64=Intel Nocona and AMD Opteron processor
(vi)	ABAP stack available only. Java not planned
(vii)	min. V5R3 required
(viii)	No HP-UX 11.23 PA-RISC
(ix)	No AIX 5.1
(x)	DB server on 32bit only
(xi)	See SAP note 905634
(xii)	
(xiii)	Linux SLES 9, 10 only
(xiv)	Solaris 9 only
(xv)	As Dialog application server for ABAP kernel only
(xvi)	DB2/UDB renamed to DB2/Linux Unix Windows (LUW)
□	Platform combination not supported

- SAP XI 3.0 supports Unicode platforms only
- Follow-on DB/OS releases will be released as usual
- JDK Versions are specified in the Installation guides

- Windows english version only
- Platform coverage of IGS is identical to Web AS

This PAM represents current planning for NW only and not for the SAP products using NW and can be subject to further changes without further notice

# JDK support for SAP NetWeaver '04 SR1

- JDK 1.4.2 available from different partners

Vendor	Operating System	Hardware	Bit	Provider
Microsoft	Windows	IA32	32	Sun
		IA64	64	Sun
		x64	64	Sun
RedHat/SuSe	Linux	IA32	32	Sun
		x86_64	64	IBM
		IA64	64	Sun
		zSeries	64	IBM
		pSeries	64	IBM
		iSeries	64	IBM
Sun	Solaris	SPARC	64	Sun
		x64	64	Sun
HP	HP-UX	PA-RISC	64	HP
		IA64	64	HP
IBM	AIX	pSeries	64	IBM
	OS/400	iSeries	64	IBM

- For server-side only
- Access to the servers graphical interface is not supported (“headless” mode)

This PAM represents current planning for NW only and not for the SAP products using NW and can be subject to further changes without further notice

# SAP NetWeaver `04 SR1 PAM: Additional Components

- Planned availability:**
- X [Released To Customer](#)
  - 10 Planned for October 2005
  - (\*) **Needed for SAP KW only**
  - (\*\*) **32-bit only**
  - (\*\*\*) **Either on MaxDB 7.5 or SAPDB 7.3**
  - (iv) **SLES 8 only**
  - (v) **AIX 5.2 only**
  - (vi) **z/OS 1.4 only**
  - (vii) **TRU64 5.1A only**
  - (viii) **Patch 22**
  - **Platform combination not supported**

### Optional 3<sup>rd</sup> party components for SAP BW 3.5 (OEM/reselling)

- TeaLeaf: Available on Windows 2000/2003 32-bit
- ESRI: Available on Windows 2000/XP
- Ascential (optional):
  - ◆ Server: Available on Windows 2000/XP, AIX 5.1/5.2, HP-UX 11.0/11i, Solaris 8/9, TRU64 5.1A/5.1B, RedHat Linux 6.1
  - ◆ Client: Windows 98/NT/2000/XP
- Crystal: Available on Windows 2000, AIX 5.1/5.2, Solaris 8/9

[Adobe Reader](#): See SAP Note 834573 for release information

### SAP XI 3.0: J2SE based adapters on all SAP XI platforms.

[SAP JCo](#): For standalone JCo see SAP note 549268. Platform availability of Integrated JCo equal to J2EE availability.

### SAP BW 3.5

- SAP BI Precalculation Service available on Windows only.
- TREX is optional

### Redwood Explorer 6.0

- Available on Windows 2000

[UME LDAP support](#): See „Partners for Directory services”

This PAM represents current planning for NW only and not for the SAP products using NW and can be subject to further changes without further notice

## SAP MDM 2.0 components:

- **Master Data Server 2.0:** has same platform coverage as SAP BW 3.1C (see folder “Database Platforms” in /platforms\*)
- **Content Integrator 2.0:** supported on Windows 2000 Server and Solaris 8 only
- **SAP XI 3.0**
- **SAP EP 6.0**
- **SAP ITS 6.20 (optional)**
- **SAP Solution Manager 3.1 (optional, but highly recommended)**  
(as an Add-on to SAP CRM 3.1 see folder “Database Platforms” in /platforms\*)

\* D- or I-user required

## SAP MDM 3.0 components:

- Master Data Server is build up with Master Data Engine 3.0 and Content Integrator 3.00 as an Add-In installation. Master Data Engine and Content Integrator share one Web AS 6.40. Please see CI 3.00 Installation Guide for details. Database platform information are available under SAP NetWeaver '04 “Web AS 6.40 on slide 2”.
- SAP XI 3.0
- SAP EP 6.0 with Content BP SAP MDM 3.00 60.1
- SAP ITS 6.20 (optional)
- SAP Solution Manager 3.1 (optional, but highly recommended)  
(as an Add-on to SAP CRM 3.1 see folder “Database Platforms” in /platforms\*)

\* D- or I-user required

# SAP NetWeaver `04 SR1 PAM: Client Platforms

**Planned availability:**

- X [Released To Customer](#)
- 1, ..., 12 **Planned for Month in 2007**
- (\*) **Rev4 or higher**
- (\*\*) **See SAP note 689063**
- (\*\*\*) **Restricted Support. See SAP Note 147519**
- (iv) **With Patch level 22 (for 6.40) and Patch level 0 (for 7.10) support on x64 as 32-bit executable on 64bit OS**
- (v) **Not for Linux RHEL 4**
-  **Not for Linux RHEL 3**
- Platform combination not supported**

	Windows 2000 (***)	Windows XP	Windows Server 2003 (32-bit)	Windows Server 2003 on x64 (64bit)	Windows Vista IA32, x64	Suse SLES 8, 9 RHEL 3, 4 (IA32)	SuSE Linux 10.1, Prof. 9.3, SLED 10 (IA32)	SLES 10 (x86_64)	RHEL 5 (IA32, x86_64)	RHEL 3, 4 (IA32)	AIX 5.2, 5.3	HP-UX 11.0, 11.11, 11.23 (PA-RISC)	HP-UX 11.31 (PA-RISC)	Solaris 8, 9	Solaris 10	MacOS X 10.4

SAP GUI for Java 7.10	7	7	7	7	7	7(v)	7	7	7	7(vi)	7	7	7		7	7

**SAP BW 3.5 BEx Frontend**  
 Compatible with SAP GUI for Windows 6.20 and SAP GUI for Windows 6.40. See [SAP Market Place](#) for more details.

**SAP BW 3.5 BEx Web**  
 See [SAP Note 494689](#) for more details.

**SAP XI 3.0**  
 SAP XI Integration Builder runs on top of Java™ WebStart 1.4.2, which is part of J2SE 1.4.2. You need to download Java™ WebStart 1.4.2.

**Mobile**

Mobile Client Platforms (occasionally connected) - follow this link for details  
[\[https://service.sap.com/~sapidb/011000358700000304622008E\]](https://service.sap.com/~sapidb/011000358700000304622008E)

**Windows local NATIVE versions supported**

This PAM represents current planning for NW only and not for the SAP products using NW and can be subject to further changes without further notice

# SAP NetWeaver `04 SR1 PAM: Browsers for End users and admin functionality

Browser	Net-scape 7.x	IE 5.5 SP2	IE 6	IE 7 (x)	Firefox 1.0 (***) Mozilla 1.7.x (***)			Firefox 1.5 (***)	Firefox 2.0 (***)

- Planned availability:**
- X Available with SR1
  - 11 Starting with [SAP NetWeaver `04 SP Stack 11](#)
  - 13 Planned for [SAP NetWeaver `04 SP Stack 13](#)
  - (\*) except special functions (see below)
  - (\*\*) These are planned availability dates to the best knowledge possible.
  - (\*\*\*) Highest available patch level needed
  - (iv) Older BSP designs support IE 5.5 ff and Netscape 6.2 ff only
  - (v) Or appropriate server version
  - (vi) Older BSP designs are deprecated
  - (vii) FireFox 1.0.2++ required for RedHat, 1.0.1++ required for Suse Linux
  - (viii) For restrictions see [SAP Note 707730](#)
  - (ix) See SAP note 766191 for Adobe Control Framework download
  - (x) See SAP note 981710
  - Platform combination not supported

**More details about [Business Package Restrictions](#)**

- MS Pocket IE is supported for specific designed mobile applications
- OS 32-bit only
- Browsers based on Firefox 1.0 engine will be supported „as-is“, i.e., the reference for SAP support is Firefox 1.0 only.
- Mobile Infrastructure supports Pocket IE for Windows Mobile, Qi Browser for Embedix Linux and IE 5.5/IE 6 for Windows.
- Mobile Web Dynpro Online supports RIM, Pocket IE, IE, Opera Browser

This PAM represents current planning for NW only and not for the SAP products using NW and can be subject to further changes without further notice
