# mDepot: Mobile Depot for Distribution

## Industry: All (With Distribution)    Device: Android

**ARTERIA**®

---

**Empowering Depots/Warehouses to receive goods from manufacturer and dispatch goods to the distribution network**
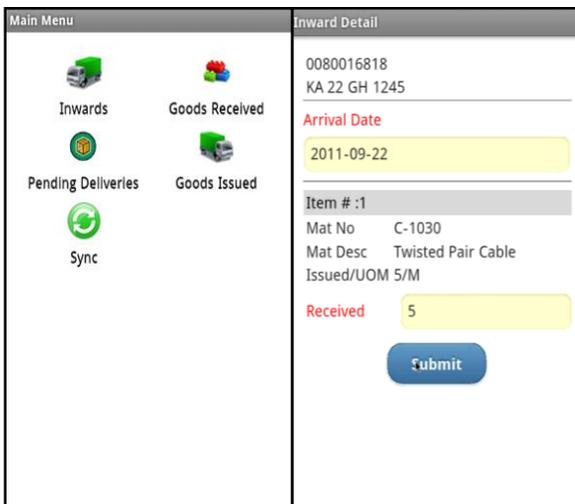

---

## Business Driver points

- Manufacturing unit may not afford a system with access to ERP to all the warehouses / depots. Hence the Warehouse / Depot in charge has to maintain a physical ledger and do manual entries for the goods received and issued. Later it has to communicated to the plant to update the ERP.
- Warehouse in charge has to spend large amount of time in manual interactions for retrieving and updating information from/to SAP ERP instead of focusing on regular work.
- Do not have the accurate data to validate the sales activities

## Solution Benefits

- Self service application to post the Goods receipt and The Goods Issue which is existing in ERP.
- Enhanced Customer Satisfaction: Improved response times to manufacturers with accurate info
- Automation of manual processes, manufacturer gets near real time update from warehouse, enables automation at remote location as well, improves efficiency
- Easy to Deploy
