

Installation and Migration

SAP® BusinessObjects™ Address Directories

General Information

SAP® BusinessObjects™ Addressing Directories are used in various Data Quality offerings to ensure the most current address information. Different products and versions require specific set of the directories. Please refer to the table below to locate the compatible address directories version for your product.

| Product Version | Addressing Directories Version |
|--|--------------------------------|
| Data Services 3.x | SBOP ADDR <country> 3.x |
| Data Quality Management for SAP Solutions XI 3.x | SBOP ADDR <country> 3.x |
| Data Quality Management for Informatica XI 3.x | SBOP ADDR <country> 3.x |
| Data Quality Management for Oracle Siebel CRM XI 3.x | SBOP ADDR <country> 3.x |
| Data Quality Management for Oracle Siebel UCM XI 3.x | SBOP ADDR <country> 3.x |

| CACE 7.80c | BOBJ ADDR DATA <country> XI R2 |
| eDataQuality 7.6x | BOBJ ADDR DATA <country> XI R2 |

EOL Reminder

If you own any of the above products that are using the XI R2 address directories, we recommend that you upgrade to Data Services today, please act now and contact your Account Manager for additional details. To learn more about the specific end-of-line dates for each product, please visit <https://service.sap.com/bosap-lifecycle> or call our toll-free number at 1-866-951-2707.

In April 2008, we released SAP® BusinessObjects™ Data Services application, our third generation of data quality management software, which provides a single and easy-to-use solution for both data quality and data integration. For more details, please visit our SAP BusinessObjects Data Services site <http://www.sap.com/dataservices>

Documentation

To find out which directory formats for your product version, please visit SAP Help Portal at help.sap.com/businessobjects. Navigate to -> *SAP BusinessObjects* -> *IM Solutions* -> *SAP BusinessObjects Solution Portfolio Knowledge Center* -> *Addressing Directories*

SAP Notes

The SAP Service Marketplace contains SAP Notes that detail solutions for known problems or provide additional information. You can search for and read SAP Notes at service.sap.com/notes.

Customer Messages

If you encounter problems when installing the provided software, create a customer message on the SAP Service Marketplace at service.sap.com/message using component BOJ-EIM-MD. In case of generic download issues, which might be caused by whatever reason (missing download authorization, missing license, corrupt file or others), use the default message component XX-SER-SAPSMP-SWC.
